

Geneva 17th April 2009

Stematch is SWIFTReady 2009 for Reconciliation

Geneva - Sterci, the leading international software provider of SOA solutions for STP, today announced that SWIFT reconducted Stematch with the highest award label for the sixth consecutive year. Stematch version 9 is SWIFTReady 2009, that is to say the SWIFT compliance recognition to provide a comprehensive automation for Cash, Treasury and Securities Reconciliation using SWIFT messaging standards. Stematch enterprise-wide reconciliation solution covers not only the Cash, Treasury and Securities positions reconciliation but also includes a generic and transaction matching facility open to SWIFT and non-SWIFT standards. It provides a very powerful embedded investigation module for exception management aiming to the improvement of efficiency and the reduction of risks.

With the version 9 awarded by SWIFT, Stematch provides a new Dashboard module and a new browser-based user interface that will facilitate the roll out of the product on multiple sites.
